

Healthcare Sector Projects

Usability and Human Factors Engineering
Software Engineering and Systems Integration
Learning Management and Technical Training
Modeling and Simulation

A Next-Generation Solution:

G3 Systems, Inc has devoted over a decade to providing technology solutions in the healthcare sector. Our work focuses on web applications development, systems architecture, process automation, data integration, personal health records and the migration of legacy systems.

Government Projects: NIH and DOD

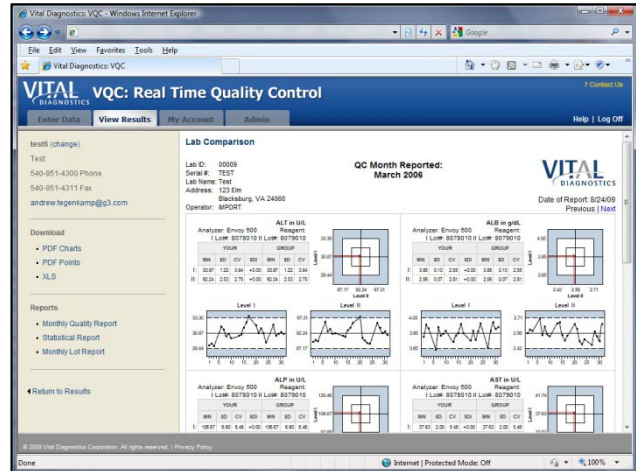

- NIMH Digital Pay Plan (DPP)
- NIH Integrated Training System (ITS)
- NIMH Account Activities Procedures (AAP)
- NIMH Recruitment Milestone Report (RMR)
- NIMH Outreach Partnership Program (OPP)
- NIMH Research Supplements Mngmnt. (RSM)
- US Army MILVAX – Vaccines.mil
- US Army MILVAX – Smallpox.mil
- US Army MILVAX – Anthrax.mil

Corporate Clients: CVS and Anthem

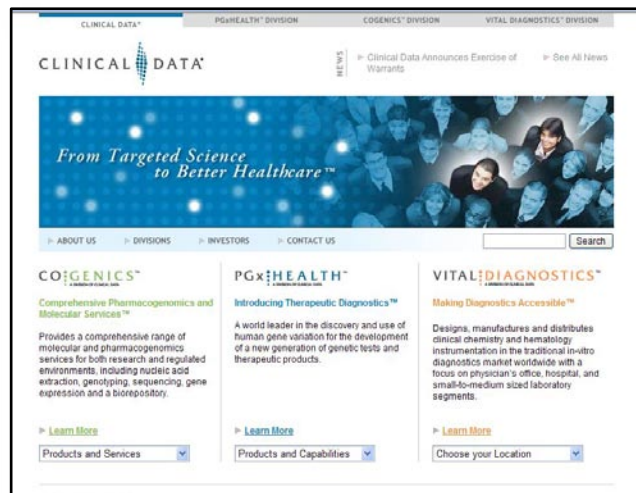

- Clinical Data – Targeted Sciences
- Cogenics - Genomics
- PGxHealth – Therapeutic Diagnostics
- Bechman Coulter – Genomics
- Vital Diagnostics – Lab Testing
- Vital Scientific – Testing Equipment
- New River Pharam – Shire
- CVS – Personal Health Records
- CVS – Better You Plan
- CVS – Health Risk Questionnaire
- CVS – Accordant Nurse Portal
- eDoc4u – Disease Risk Index Integration
- Gordian Health - Preventive Care Plan
- Activhealth – Health Risk Assessment
- Anthem – Personal Health Records

Educational Projects: VCU and VT

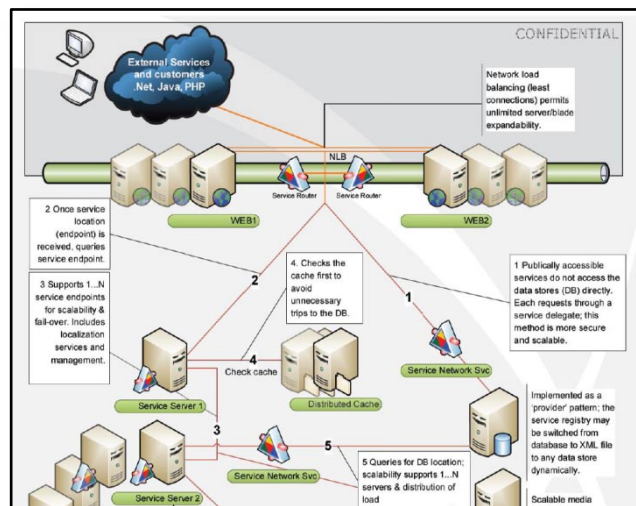

- Virginia Tech Fetal Pig Dissection Simulation
- VCU Medical Center – Surgical Simulation
- VCU Medical Center – Device Simulation

VITAL: VQC Lab Testing and Decision Support

CLDA: Research, Testing and Equipment Info

CVS: 40 Million Transactions for 4 Million Users
